LEADING GLOBAL TRADE

LEADING THE WAY IN GLOBAL TRADE AND LOGISTICS

Welcome to Qatar Airways Cargo, the world's leading air cargo carrier. We're proud to drive the future of global trade with unmatched service, reliability and innovation

One of the world's most awarded airlines, we connect businesses across the globe to a network of over 60 freighter and more than 160 belly-hold destinations.

With state-of-the-art facilities, a modern fleet of 28 Boeing 777 freighters and 230 belly-hold aircraft, we transport goods seamlessly and securely, from perishables and pharmaceuticals to heavy machinery and live animals.

Digital Lounge, our intuitive online booking portal, allows you to book online with us, anytime, anywhere. Our specialist global

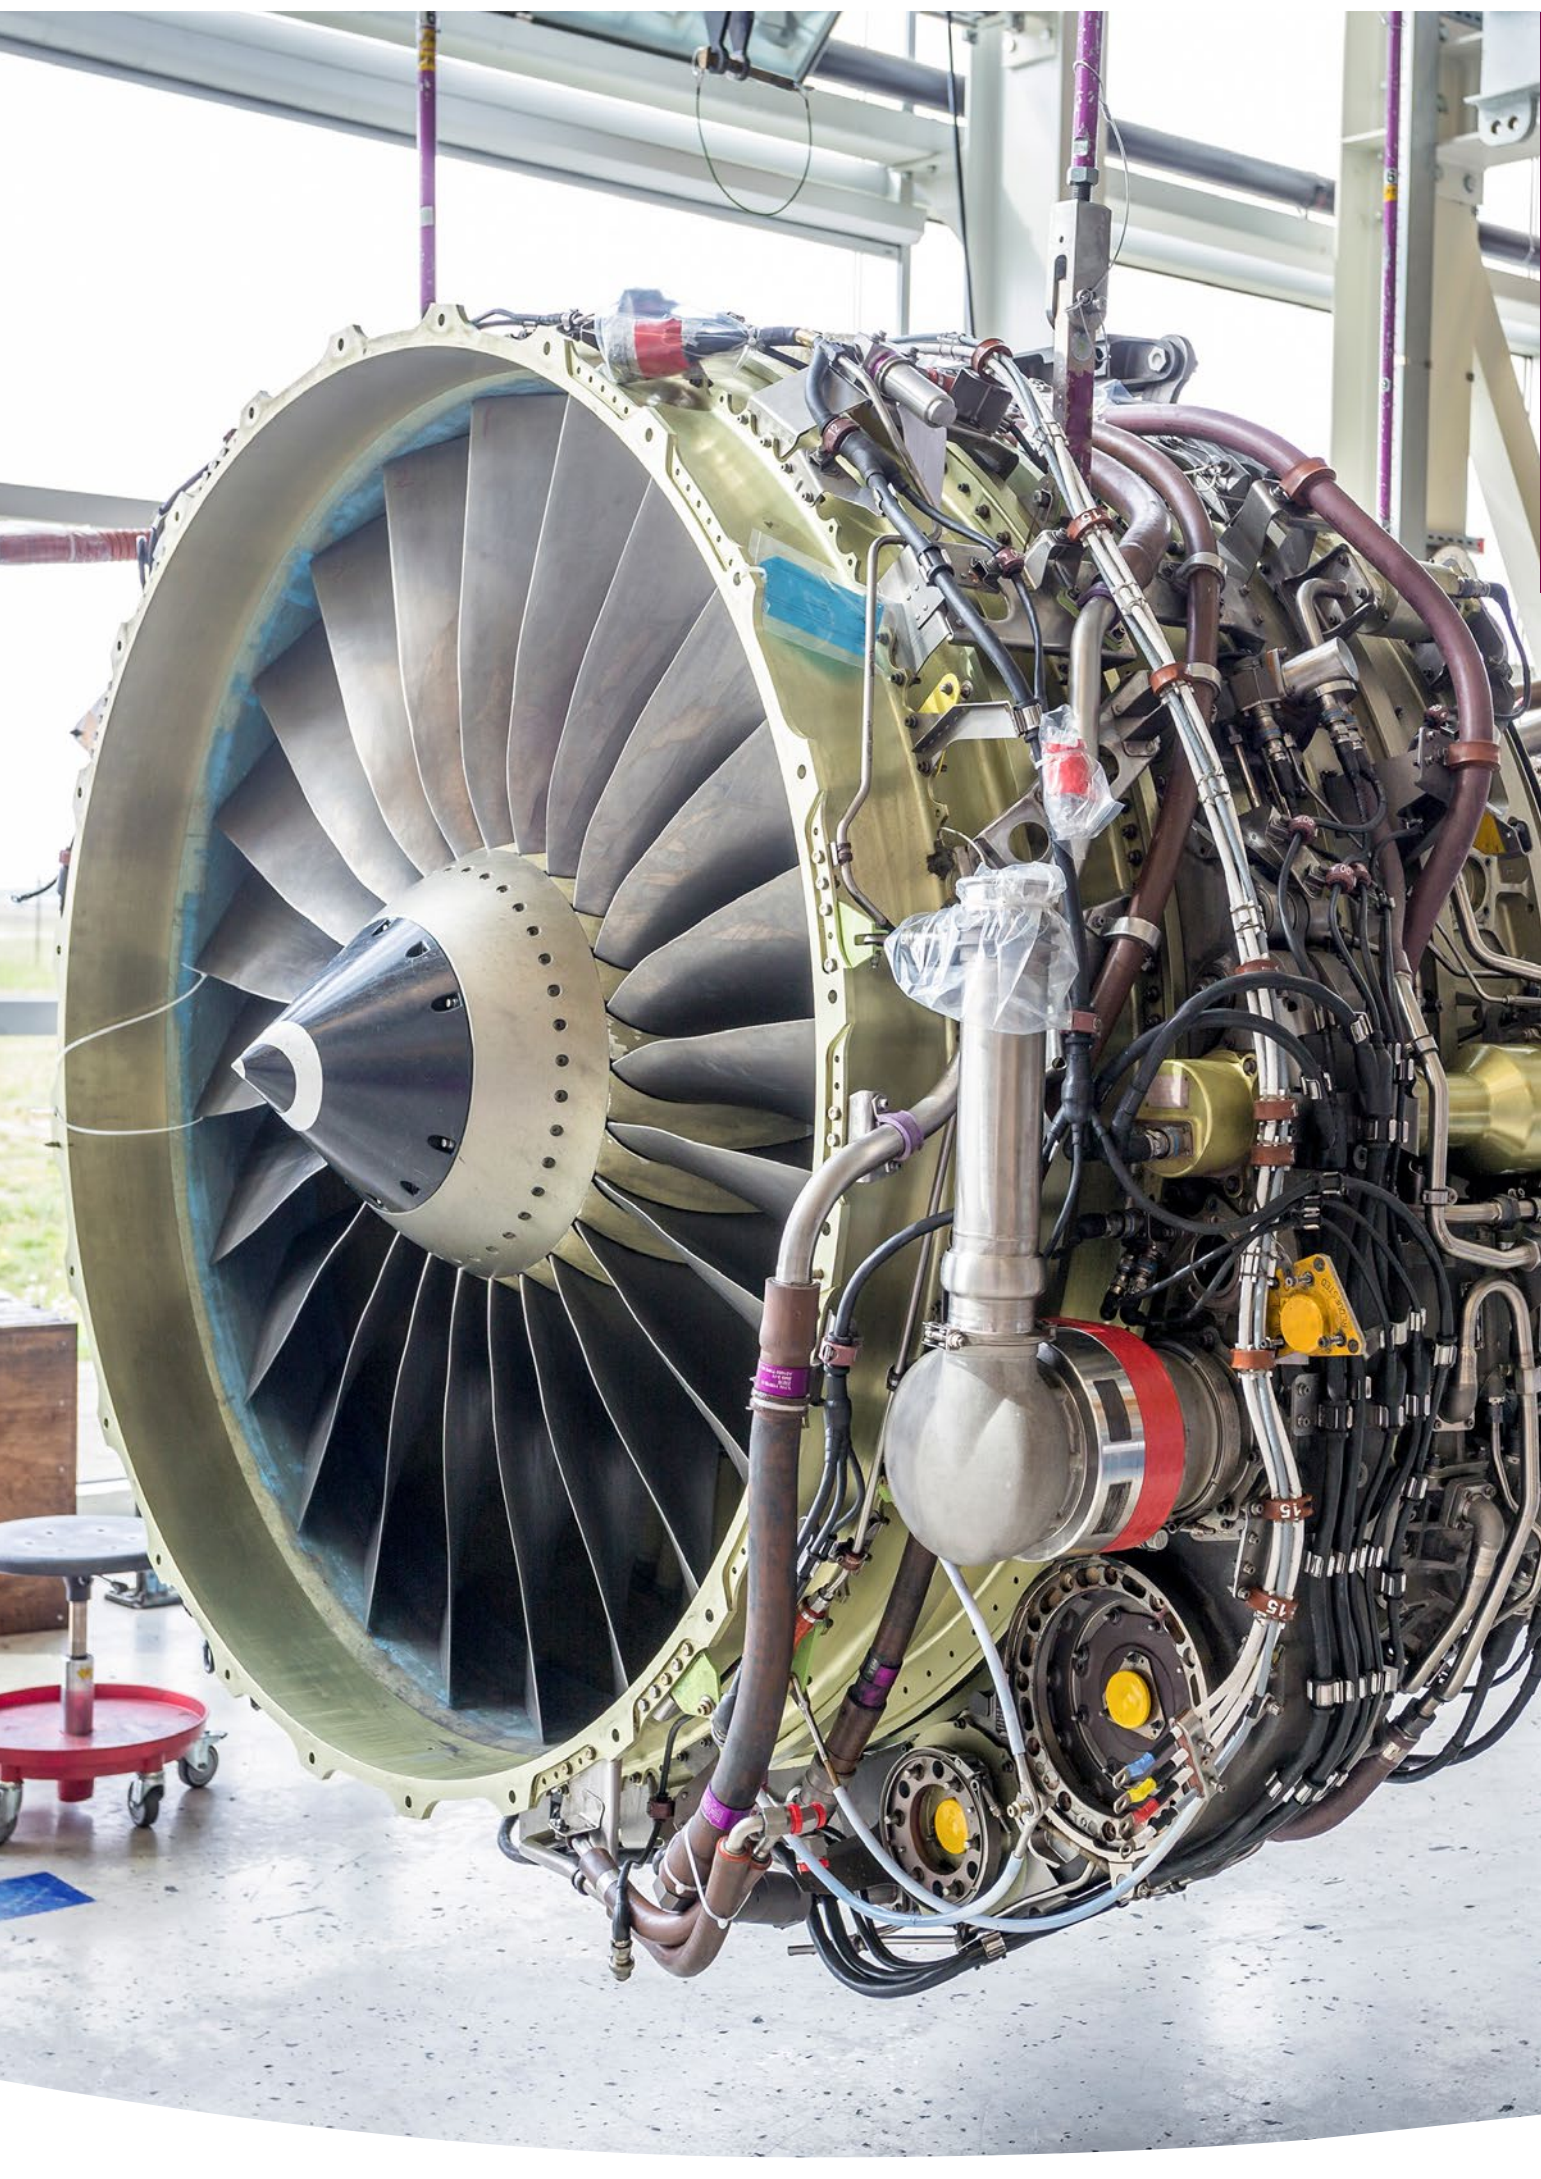

sales teams are available to guide you on our products and support you with booking your cargo with us.

Whether it's implementing cutting-edge digital booking systems and real-time tracking solutions, embracing automation and data analytics, or pioneering sustainability through our **WeQare** programme, trust us to lead the way.

With innovative, responsible logistics solutions you can count on, we're shaping the future of global trade.

LEADING GLOBAL TRADE

A large jet engine is shown from a low angle, highlighting its massive size. The engine is mounted on a red trolley and is surrounded by various hoses and wires. The background shows the interior of a hangar with structural beams and lighting.

INTRODUCING AEROSPACE

The unrivalled service your aerospace cargo deserves

Our **Aerospace** service is a comprehensive, tailor-made solution for the commercial aviation, defence and space technology sectors, created with a keen understanding of your business. It's designed to deliver swift logistics solutions for critical parts and components, including avionics, electric propulsion, airframe interiors, landing gears and more, for time-sensitive shipments in the aerospace industry.

With highest loading priority, we ensure rapid processing and seamless transportation of critical Aircraft On Ground (AOG) shipments. Speed, security, safety and reliability are paramount, with bespoke shock-absorbing transport dollies at our hub in Doha, capable of carrying the largest engines, including the Rolls Royce Trent 7000 and GEnx-2B, up to 20,000kg.

Count on us to deliver your mission-critical components across the globe, safely and securely, with speed and precision every time, handling your aerospace logistics with unmatched expertise.

AirPlus Solutions

Upgrade your handling priority, take advantage of in-transit temperature controls, and get access to 24/7 dedicated monitoring to enhance the journey of your shipments. Choose from:

Q-Climate

Optimal flight and storage temperatures, including refrigerated trucks with extra shock absorption.

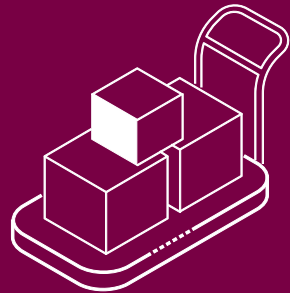

Q-Plus

Even higher priority loading.

Q-Prime

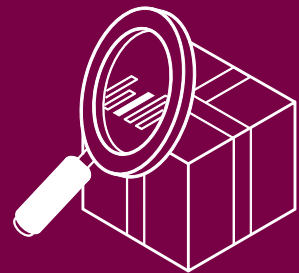

Highest priority on capacity-restrained flights, plus continuous monitoring provided by Qatar Airways Cargo's Control Tower.

HIGHLIGHTS

Floating loading techniques

We ensure safety and stability with our floating loading techniques, designed to keep your shipments secure even during turbulence and runway movements.

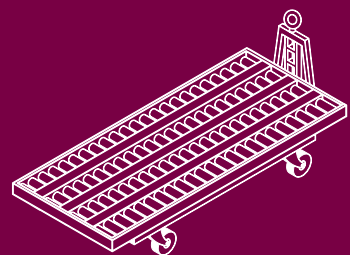

Advanced screening techniques

Experience faster acceptance and shipping times with our advanced screening methods for maximum efficiency and security.

Tail-to-tail transfers in four hours

We streamline your cargo's journey with our Quick Ramp Transfers (QRT) in Doha, ensuring rapid connections between our aircraft. This service significantly reduces your connection times, subject to flight availability.

Shock-absorbent dollies

We protect sensitive aerospace components from damage during transportation at our hub in Doha, with our specialised shock-absorbent dollies reducing vibrations and movement during transit. 13 shock-absorbing 20ft dollies and two shock-absorbing 40ft dollies are available.

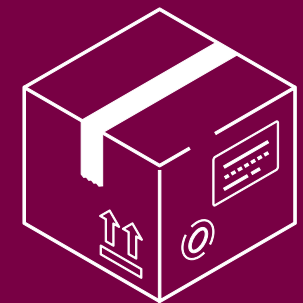

Control Tower support

Benefit from dedicated customer service that provides real-time updates and support, monitoring your shipment from Received by Carrier/Shipper (RCS) to Cargo and Documents Delivered (DLV) for peace of mind.

Dedicated Special Loads team

Enjoy the expertise of our dedicated Special Loads team, which evaluates bookings and ensures adherence to IATA, ICAO, and QR standards, providing the correct loadability information.

Certified onboard Load Masters

Experience unparalleled service with our trained specialists who oversee loading to ensure optimal placement and safety, compliant with weight distribution and aircraft safety regulations.

High loading priority

Receive highest priority for AOG shipments, minimising aircraft downtime, while non-AOG shipments also benefit from high priority to reduce offloading risks.

DISCOVER OUR UNRIVALLED HUB FACILITIES

We move your import, export, and transit cargo with speed and precision

Over 2.6 million tonnes of cargo are handled every year at Hamad International Airport's (HIA) cargo campus. The split-level facility covers over 85,000m², boasting 16 freighter bays, 42 airside loading docks, 31 landside truck-loading facilities, specialised warehouse spaces, and state-of-the-art automated systems and retrieval systems.

Our Animal Centre, which is the largest in the world, a courier and mail facility, additional enhanced capacity and Quick Ramp Transfer also contribute to our substantial cargo hub capabilities.

QAS Cargo, our award-winning ground-handling partner, manages our hub at HIA. QAS Cargo runs a dedicated Hub Operation Control Centre, coordinating with logistics stakeholders to ensure that shipments continue their journey in a safe and smooth manner.

CLIMATE CONTROL CENTRE

The state-of-the-art Climate Control Centre at HIA is a 2,470m² transit facility situated at the airside, enabling us to process more volumes of shipments within a climate-controlled environment.

Facility features

- Two zoned rooms for +2°C to +8°C and +15°C to +25°C.
- 78 ULD storage positions in each zone, totalling 156 positions.
- Three truck docks in each zone with blow-up curtains to seal around the truck when docked to maintain temperature integrity.
- Ante-room to ensure a constant set temperature within the zoned area. This can also be used as a staging area.
- Additional throughput capacity of 140,000 tonnes annually.
- 62 charging points for active containers.

ANIMAL CENTRE

Animal welfare is our absolute priority at Qatar Airways Cargo, and we're proud to go above and beyond the required regulatory standards to ensure that every animal entrusted to us is given the utmost care and comfort at our Animal Centre.

- 5,260m² facility with cutting-edge features.
- 24 horse stables within four separate zones.
- 180 kennels across 11 rooms for cats and dogs.
- Separate rooms for birds, fish and reptiles.

TOGETHER WEQARE

Join us in building a better world

At Qatar Airways Cargo, we're committed to making a real difference. Our **WeQare** sustainability programme uses our extensive network to transform lives and environments through dedicated support to charitable, environmental and humanitarian initiatives globally.

It's our promise to create a more positive impact on the industry and the world, addressing our four core pillars of environment, society, economy and culture, as part of our ongoing Corporate Social Responsibility programme.

A world of difference with humanitarian aid

We're passionate about creating genuine impact. Our efforts provide vital support to NGOs and charities by transporting humanitarian aid free of charge, partnering with renowned organisations like UNHCR, UNICEF, the World Food Programme and Airlink.

Leading the way in wildlife protection

As official airline partner for United for Wildlife (UfW), together we're spearheading the prevention of illegal wildlife trafficking with a zero-tolerance policy. Through our Rewild the Planet initiative, we are proud to play a role in returning wild and endangered animals to their natural habitats free of charge.

Committed to sustainability

We are committed to achieving net zero carbon emissions by 2050. As pioneers in the industry, Qatar Airways Cargo is the first air cargo carrier to join the IATA CO2 Connect platform and make a carbon transaction on the IATA Aviation Carbon Exchange (ACE). In addition, we continue to reduce waste and enhance our recycling efforts at our Doha hub and beyond.

Together, we can build a better world. Join us on our sustainability journey with WeQare.
